Career Objective

Motivated MCA graduate with strong skills in Core Java, OOPs, Data Structures, SQL, and Java frameworks (Spring, Hibernate). Passionate about application development, problem solving, and collaborating in cross-functional teams. Seeking an apprenticeship as a Java Developer to contribute to innovative solutions and gain hands-on experience in a fast-paced IT environment.

Education

Master of Computer Applications (MCA) CGPA: 8.3	Anjalai Ammal Mahalingam Engineering College, 2025
Bachelor of Computer Applications (BCA) CGPA: 8.34	PRIST University, 2023

Technical Skills

Programming Languages: Core Java, JavaScript, SQL
Frameworks/Tools: Spring, Hibernate, Servlets, JSP, JDBC, MySQL, Git, Eclipse, IntelliJ IDEA
Technologies: REST APIs, OOP, Data Structures, Debugging

Projects

Fraud Detection and Criminal Identification in ATM Banking • Developed a real-time face recognition system for ATM security. • Implemented fraud detection algorithms focusing on accuracy and efficiency. • Collaborated with peers in system design, testing, and maintenance.	Python, MySQL, Haar Cascade Algorithm
E-Commerce Application (Mini Project) • Built a mini e-commerce platform; developed product catalog and order management modules. • Used MVC architecture with Spring/JSP and integrated MySQL as backend. • Participated in code reviews and troubleshooting.	Java, Spring, JSP, JDBC, MySQL
Chat Application • Developed a multi-threaded chat system for real-time communication. • Applied concepts of concurrency and network programming.	Java, Socket Programming, Multithreading

Certifications

- Java Full Stack Web Development, Tap Academy, Bengaluru (Feb–Aug 2025)
- Agile Project Management, HP Life (Jul 2025)

Achievements

- 2nd Prize, Cyber Security Quiz (Inter-College Competition)
- Winner, Department Cricket Tournament
